ACCREDITATION

The certification programs offered by AANPCP are accredited by both the Accreditation Board for Specialty Nursing Certification, Inc. (ABSNC) and the National Commission for Certifying Agencies (NCCA).

ABSNC, the only accrediting body specifically for nursing certification, provides a peer-review mechanism that allows nursing certification organizations to obtain accreditation of their certification programs by demonstrating compliance with the highest quality standards available in the industry.

NCCA, the accrediting body of the Institute for Credentialing Excellence (ICE), serves to ensure the health, welfare, and safety of the public through the accreditation of certification programs and organizations that assess professional competence. Accreditation by NCCA indicates AANPCP’s compliance with the NCCA Standards for the Accreditation of Certification Programs.

RECOGNITION

Certifications by AANPCP are recognized by all State Boards of Nursing, the Centers for Medicare and Medicaid Services (CMS), the Veterans Administration, private managed care organizations, institutions, and health care agencies for credentialing purposes.

COMMISSION

AANPCP is an independent, separately incorporated, non-profit organization overseen by a commission composed of nurse practitioners representative of the Certificants, and one public member. Elections are held annually in October; ballots are sent electronically to Certificants’ Online Profile email address. The commission governs all major decisions affecting the certification programs and processes, and offers input and guidance into organizational decisions.

THE AMERICAN ACADEMY OF NURSE PRACTITIONERS CERTIFICATION PROGRAM

MESSAGE FROM THE CHAIR AND CEO

The American Academy of Nurse Practitioners Certification Program (AANPCP) had another exceptional year, marked by continued growth. This year AANPCP celebrates its 22nd year of serving the nurse practitioner community by providing high quality certification programs. This Annual Report provides an overview of AANPCP activities and accomplishments during the past year.

At the end of 2015, AANPCP had 69,704 active Certificants, which is a 50% increase from 2013 and 80% increase since 2012. Applications for Initial Certification rose 23% in the past year, and the total number of Initial examinations administered exceeded 14,700.

Established in 1994, AANPCP is an accredited, national certification board that provides mechanisms for evaluation of individuals wishing to enter, continue, and/or advance in the Nurse Practitioner profession through the certification process.

AANPCP certifies:
- Adult Nurse Practitioners (ANP)
- Family Nurse Practitioners (FNP)
- Gerontologic Nurse Practitioners (GNP)
- Adult-Gerontology Primary Care Nurse Practitioners (A-GNP)

2015 statistics:
- Number of Certificants by population area:
  - FNP (56,658)  ANP (8,812)
  - A-GNP (3,978)  GNP (256)
- Number of Initial Exams and Pass Rates:
  - FNP (12,301/81.4%)  ANP (143/75.5%)
  - A-GNP (2,266/81.7%)
- Number of All Exams and Pass Rates:
  - FNP (14,271/77.7%)  ANP (249/65.1%)
  - A-GNP (2,574/79.2%)
- Recertification rate for all programs: 93.3%

We are grateful for the contributions of the Commissioners, the volunteer work groups for exam development, consultants, and the dedicated AANPCP staff.

While 2015 was an exceptional year and we marvel at what we have accomplished, we are excited about what lies ahead for the NP profession and AANPCP. Thank you for allowing us to serve you, and thank you for making AANPCP the certifier of choice among primary care nurse practitioners.

Dr. Lorna Schumann
Certification Chair

Richard F. (Rick) Meadows

FINANCE REPORT

REVENUES

OUTLOOK FOR 2016
The Board of Commissioners (BOC) remains conservative with budgeted projections for 2016. Revenues are holding, and as expected, fees associated with exam development and administration remain our highest expense. While expenses increased 35.8% from 2014 to 2015, AANPCP application fees have not changed in 10 years. This statement represents an un-audited income statement report for the Fiscal Year ending 12/31/2015.

2015 ANNUAL REPORT
AANPCP celebrated the 50-year Anniversary of the NP Role at the 2015 AANP National Conference in New Orleans by co-hosting with the University of Colorado, School of Nursing a reception for AANPCP certificants and conference attendees. The first nurse practitioner program was established at the University of Colorado in 1965 by Dr. Loretta ‘Lee’ Ford, who is recognized as the founder of the NP role. Dr. Ford led the procession into the reception wearing her famous Super Hero attire.

To further commemorate this milestone for Nurse Practitioners, AANPCP presented a Historical Timeline of NP Certifications at the reception (see last page.)

Rick with Dr. Loretta ‘Lee’ Ford and Naomi Judd (a former RN), who gave the keynote address at the opening session of the 2015 AANP National Conference.

Rick Meadows, AANPCP CEO, at the podium announcing the reception.
FNP PRACTICE ANALYSIS
The Family Nurse Practitioner Practice Analysis, which is the basis of the FNP certification examinations, was initiated and completed in 2015. A special ‘thank you’ is extended to the Task Force members, pilot participants, and all the FNP Certificants who responded to the FNP Practice Survey. The 2017 FNP certification examinations will reflect the updates found in the survey. A summary report of the FNP practice analysis will be made available on the website www.aanpcert.org under the About Us tab.

EMERGENCY NP CERTIFICATION BY EXAM
Plans for developing the first national Emergency Nurse Practitioner (ENP) certification by examination were initiated. AANPCP entered into an agreement with the American Academy of Emergency Nurse Practitioners (AAENP) to collaborate on an ENP specialty certification examination. Information about the ENP certification, including eligibility criteria and exam launch date, can be found under the FAQs tab on the AANPCP home page.

PRECEPTORSHIP RECOGNITION
AANPCP also participated in research conducted by NP faculty in collaboration with AANP to examine the role of preceptorship in maintaining clinical competence for nurse practitioners. The results clearly demonstrate the benefits serving as a preceptor has on utilization of and access to current evidence and guidelines for practice, as well as other educational resources. AANPCP recently revised recertification criteria to include preceptor hours as an option for recognizing on-going clinical competency. Information about the revised certification renewal requirements can be found under the Recertify tab on the AANPCP home page (aanpcert.org).

AANPCP SPONSORED ACTIVITIES
In 2015, AANPCP represented NP certification by sponsoring exhibits and special events at several professional meetings, such as at the American Board of Nursing Specialties Spring and Fall Assemblies (March/September), AANP Health Policy Conference (March), National Organization for Nurse Practitioner Faculties Conference (April), APRN Round Table (April), AANP National Conference (June), National Nurse Practitioner Symposium (July), National Council of State Boards of Nursing Annual Meeting (August), Texas Nurse Practitioner Annual Conference (September), AANP Leadership & Specialty Conference (October), Institute for Credentialing Excellence (October), and Anniversary of the APRN Consensus Model (December). In addition to the reception at the 2015 AANP National Conference, AANPCP also held an Item Writing Workshop for clinical experts who wish to participate in developing items for the national certification examinations.

EDUCATION CATEGORY STATISTICS
AANPCP has added posting of Initial Examination Pass Rates by education categories to the 2015 Annual Report statistics. The categories include Master’s, Post-Graduate and Doctorate of Nursing Practice.

NP Certification Historical Timeline

1974
American Nurses Association (ANA) administers first certification exam for Pediatric NPs

1975
ANA launches Adult NP and Family NP certifications

1976
ANA launches Gerontological NP and School NP certifications

1977
NCC launches Neonatal Nurse Clinician certification

1979
NCC Neonatal Nurse Clinician certification becomes Neonatal NP certification

1980
NCC launches Obstetric and Gynecologic NP certification

1983
NCC launches Geriatric NP certification

1990
ANA forms ANCC

1992
ANCC launches Adult-Gerontology Acute Care NP certification

1993
ANCC launches Adult Psychiatric-Mental Health NP and Psychiatric Mental Health NP certifications

1994
ANCC independently launches Acute Care NP certification

1995
ANCC launches Adult-Gerontology Acute Care NP certification

2001
ANCC launches Adult-Gerontology Primary Care NP certification

2005
ANCC launches Acute Care Pediatric NP certification

2007
PN CB launches Neonatal Nurse Clinician certification

2011
PN CB launches Pediatric Primary Care Mental Health Specialist certification

Organizations that certify NPs
- American Academy of Nurse Practitioners Certification Program (AANPCP)
- American Association of Critical-Care Nurses Certification Corporation (AACN CertCorp)
- American Nurses Credentialing Center (ANCC)
- National Certification Corporation (NCC)
- Pediatric Nursing Certification Board (PNCB)

NP-C®

NP-C is the registered trademark of the American Academy of Nurse Practitioners National Certification Board, Inc. It is the credential authorized for use by those individuals who have met the standards, qualifications, testing requirements, and maintenance of certification requirements established by the American Academy of Nurse Practitioners National Certification Board, Inc. Individuals who allow their AANPCP certification to expire may not use the NP-C credential and may not represent themselves as being certified by AANPCP.
